Come si costruisce un'idea?

How to proceed with problem analysis ?

- ☀ Identify key problems existing within a given situation (brainstorming)
- ☀ Select a starter problem
- ☀ Look for related problems to the starter problem
- ☀ Establish hierarchy of causes and effects
 - problems which are directly causing the starter problem are placed below
 - problems which are direct effects of the starter problem are placed above
- ☀ Complete with all other problems accordingly
- ☀ Review the diagram and verify its validity and completeness
